

# Instructions to Connect to the Hawkeye Community College Wireless Network

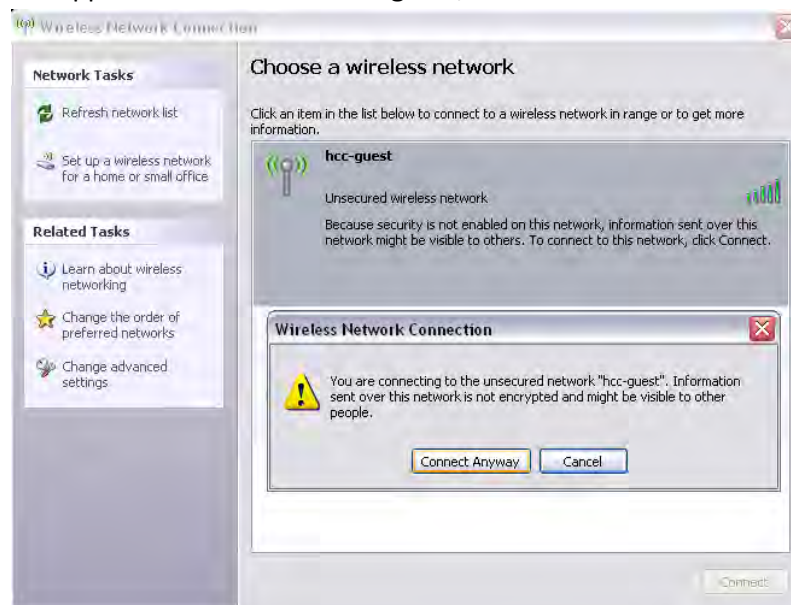

1. Microsoft Windows will show an icon with a notification that says it has found wireless networks

2. Right-click the wireless network icon in the lower right corner of your screen, and then click **View Available Wireless networks**

3. The Wireless Network Connection window appears and displays **hcc-guest**. If you don't see **hcc-guest**, click Refresh network list in the upper left corner. Click **hcc-guest**, and then click Connect in the lower right corner.

4. Click **Connect Anyway** if you accept the warning stated in the informational window.

## Hawkeye Network Access

If you are a guest of Hawkeye Community College and would like internet access, please click the button below

[Guest Access](#)

5. After clicking the button for **Guest Access**, you are connected and can view websites<sup>1</sup>.
